HIKING IN TRINITY - GUN HILL TRAIL

Easy (very top can be difficult)

2km Lower Gun Hill Trail (loop)

1km Upper Gun Hill Trail

1-2 Hours to complete both trails

The Experience:

Gun Hill, formerly known as Ryder's Hill is located at the base of Trinity. The upper trail leads straight to the top of the hill for a fantastic 360 degree view of the entire area and offers a great vantage point for picture taking. Halfway up the trail hikers will find the cannons that once protected Trinity from attacks during the wars between the French and the English. A photo of Trinity taken in 1910 is on display that allows visitors to see what ways the town has and has not changed over that past 100 years. The best time to take this hike is late afternoon. The town looks spectacular during the golden hour when the sun lowers over Fisher Cove. The walk takes approximately 20 to 30 minutes to get to the top and slightly less time to get down. This is also a great spot to watch the sunrise because the entire trail provides an unobstructed view towards the East.

The second installation of a fort was in 1812 to serve as protection against the raids of American privateers. After the fort was abandoned, a lighthouse was installed in 1871.
